Keyword brief for citations and backlinks

Sahara Office Equipments (saharaprinter.com) | Printer and photocopier rental, repair, AMC, toner, paper shredders and PVC card printers, UAE | October 2026

How to read this brief

Impr. and **Pos.** are what Sahara gets today in Google Search Console (web, 28 days to 20 Oct 2026): impressions and average position. These show where links will pay off quickest. **Volume** is monthly search volume from Semrush. **TV** = to validate (no volume in our data yet). Link each keyword to the page in the last column, not only the homepage.

1. Core rental, repair and AMC (already ranking, links move these fastest)

2. Paper shredders (rental and sales)

Semrush sizes the shredder cluster at about **1.0k searches/month** (industrial paper shredder machine), **590** for 'paper shredder' and **240** for 'paper shredder rental'. Sahara already ranks for the rental terms (position 1 to 3) and is on page 2 for the generic and Dubai machine terms, so links to the two shredder pages should lift them.

Keyword	Impr.	Pos.	Link to
shredder rental / shredder for rent / paper shredder rental	8 / 6 / 20	2.9 / 1.3 / 19.6	/services/paper-shredder-rental/
paper shredder / paper shredders	36 / 29	21.3 / 17.0	/services/paper-shredder-sales/

shredder services in sharjah	13	8.5	/services/paper-shredder-rental/

Confirm with Sahara before targeting: 'document shredding services', 'mobile shredding services near me', 'scrap shredder services'. These ask for a shredding service, not a machine.

3. PVC / ID card printers (sales, rental and card printing)

Semrush: **110** searches/month for 'pvc card printer', and the Bravo card printer page is tracked at position 24 (about 90/month for the brand search). Sahara is page 1 to 2 for the brand and distributor terms and far down (position 35 to 48) for the generic machine and supplier terms. These are the best link targets here.

5. Branded citations (name, address, phone listings)

Business name: **Sahara Office Equipments**. Brand search: 'Sahara Printer'. Use exactly the same name, address and phone (+971) on every listing, matching our Google Business Profile.

6. Do not target

print shop near me, t-shirt or shirt printing, stamp maker, computer repair, digital agency, gift printing, photocopy shop near me. Sahara does not offer these.

7. Rules for the agency

- Most anchors should be the brand name or the bare URL. Exact-match keyword anchors stay under 15%.

- Use UAE-relevant directories, chambers of commerce, supplier and industry listings first. No private blog networks, comment spam or bulk directory submissions.
- Link to the deep page named in the tables, not only the homepage. Use natural variations of the keywords.
- Do not use competitor names as anchors.
- Send a weekly list of live links: URL, anchor text, date, and the page it points to.
